Toronto, ON, Canada M9B 6L3

New, patented Triple-Seal Snap Lock Closure produces an air tight seal that eliminates leaks and product contamination.

Exclusive proprietary surface treatment prevents product skinning.

Superior Performance at last...

- Zero rust/corrosion on plug, ring or body!
- Zero dented, damaged, discounted product on display!
- Zero lid skinning issues!
- Zero leakage when properly closed!

Available in 4-liter, gallon, liter, quart, 1/2 liter, pint and 1/2-pint capacities.

The research, engineering and continual improvement behind KW's ALL-Plastic and Hybrid Container family is unparalleled in container manufacturing. Why pay more for less? The KW ALL-Plastic Container clearly delivers performance, protection and value for your water-based coatings.

KW's ALL-Plastic Container is the CLEAR CHOICE for containing and delivering your valuable formulations.

KW Container

Expect more from your container supplier.

Made from 100% Recycled Material • 100% Recyclable • User Friendly

For a colour brochure call us: 905-957-4086

It's in our Nature...

To be an Industry Innovator.

Providing European technology for wood that includes outstanding water-based coating options, low formaldehyde and formaldehyde hazard free finishes, HAPs-free systems, and an extensive range of UV finishes.

To Support our Customers.

Utilizing our broad North American distribution network, backed by the strength of a global company, to bring wood finishers leading products, service, and expertise.

To Provide Solutions.

With our fully equipped technical and application centers, and products that help finishers meet evolving regulatory initiatives like LEED and BIFMA, Becker Acroma provides wood finishers with the solutions they need to stay at the forefront of the industry.

Innovative. Supportive. Solution-focused. **It's in our nature!**

Becker Acroma / 140 Garden Ave. / Brantford, ON, Canada, N3T 5M1 / 519-758-1508
Becker Acroma / 4750 New Mills Rd. / Jeffersonville, IN 47130 / 812-288-0712

DYNAMIX Blending Technolgy, Service and Value

Dynamix is the largest Canadian owned manufacturer and supplier of metal finishing chemistry. "The philosophy at Dynamix is simple - enhance our customers' performance and profitability, while dealing with all of our partners in an open and honest forum."

The primary focus of Dynamix is the design and manufacture of specialty chemicals for the metal finishing industry, covering all aspects of metal finishing from anodizing to zinc plating. Toll blending, packaging and distribution of custom formulated products are also available.

We offer a service that encompasses all of our values with a highly skilled and motivated team. The laboratory at Dynamix is well equipped and able to provide analytical solutions specific to a particular sector of industry and/or customer. Products are designed at Dynamix to provide unsurpassed performance and solution economy. Superior chemistry is only the beginning, as the company realizes that technical and application knowledge are just as vital to the metal finishers' success.

Let Dynamix demonstrate how we can maximize your plating chemistry productivity by providing the most robust chemical processes available.

FUNCTIONAL COATINGS

- Anodizing Chemistry
- Black Oxide Processes.
- Conversion Coatings.
- Copper Processes.
- Electroless Nickel Processes.
- Electropolishing Processes.
- Hard Chromium Processes.
- Phosphate and Phosphate free coatings.
- Tin Processes.
- Zinc and Zinc alloys, Chromates and Topcoats.

DECORATIVE COATINGS

- Copper/Nickel/Chrome Processes.
- Copper and Brass Processes.
- Bright/Dull/Satin Nickel Processes.
- Tin Processes.
- Antiquing Processes.

SPECIALTY PRODUCTS

- General purpose and heavy duty cleaners for all substrates and applications.
- Metal strippers.
- Paint strippers for use on ferrous and non-ferrous substrates.

Valspar Inc.

valspar
if it matters, we're on it.®

**Superior Performance, Trusted Partner,
Dependable Results**

ZENITH™ Waterborne products are third-generation waterborne coatings designed for finishing fine woodwork. They have exceptional film clarity that retain the natural warmth and character desired by professional wood finishers while being easy to apply and exhibiting outstanding durability properties.

Zenith Waterborne products are low VOC, HAPS-free, contain no isocyanate or formaldehyde and are Greenguard™ certified.

Clip-On Nozzle with Quick-Disconnect Tip!

MOLDED PLASTIC QUICK DISCONNECT **K-BALL®/ZIP-TIP® SPRAY NOZZLES**

US PATENT 5,421,522. OTHER PATENTS PENDING

- No tools required for ZIP-TIP nozzle tip installation or removal
- Once you set your spray pattern, you can remove and clean the tips without disturbing the alignment
- Seals located on and removed with nozzle tip for easy flushing
- Standard double Viton "O"-ring seals
- New seals supplied with each new nozzle tip
- Reduces maintenance time and cost by a simple 1/4 turn of the nozzle tip
- More models and spray patterns available
- Only BEX Clip-ons offer the unique "finger" positioning system

Industrial Finishing Equipment and Services

PosiTest® Pull-Off Adhesion Tester

Measures adhesion of coatings to metal, wood, concrete and other rigid substrates – revolutionary self-alignment feature and pull rate indicator

SEE US AT

FINISHING PAVILION
 November 14-17, 2011
 fabtechexpo.com

BOOTH #3721

- New electronically controlled hydraulic pump automatically applies smooth and continuous pressure
- Test with the simple push of a button. No twisting, pumping or cranking. No valves to close, needles to reset, or scales to adjust
- User-selectable pull rates ensure compliance with international test methods

Microtrac
 Total Solutions in Particle Characterization

MICROTRAC PARTICLE SIZE INSTRUMENTS

A Global Leader in Particle size instruments

Nanotrac Particle Size Analyzers
 Microtrac Nanotrac series
 Liquid samples
 Particle sizes from 0.8 nm to 6.5 micron

Microtrac Laser Diffraction Particle Size Analyzer 0.01um to 2816 microns
 Wet or Dry mode
 Optional Size Image Module attached

Microtrac Image Particle Size Analyzers
 1.00 Microns to 35 Millimeters

Microtrac Zetatrac series
 Zeta Potential and Particle size
 Optional titration system available

Microtrac New SEMTRAC
 (Scanning Electron Microscope)
 with optional EDX detection
 A True table top SEM Microscope

Precise

Graco's AirPro® EFX

is compact, lightweight and your solution for small component precision finishing.

Get superior fluid flow rate stability and repeatability – for excellent coverage every time you spray.

Pair with Graco's **low flow regulator** when you need tight control of intricate finish details.

**Small Component
 PRECISION
 FINISHING**

SATA SATA® 484™ & 284 triple stage filtration

100% Clean Air

Clean, Pure, Compressed Air with the
SATA 484 & 284 Triple Stage Fine Filters

Stage 1
Sintered Bronze

Stage 2
Micro Fine

Stage 3
Activated Charcoal

- Compatible with everything water & solvent borne
- Automatic/manual condensate discharge, reducing maintenance
- Activated Charcoal provides clean, pure, spraying and breathing air
- High air volume - 130 cfm at 90 psi allows high productivity with the 484 series filter, and 70 cfm for the 284 series filter

Efficient

Need faster flushing and an excellent finish quality for your custom wood shop?

Graco's Merkur® ES is the perfect solution.

These industrial strength, portable pumps come in Air-Assist or Airless Spray Packages and use 45% less material to fill the system than leading competitors.

SAVE money and material with Fast, Efficient Flushing

For more information call 1-877-844-7226 or visit www.graco.com/MerkurES

NORSPEC
 FILTRATION

NORSPEC FILTRATION LTD. is an industry leader in the supply of filtration products, serving the paint and coatings industry for close to 25 years. Norspec offers filters for both the industrial paint spray market and automotive collision repair aftermarket. Filters for downdraft spraybooths, crossdraft spraybooths, panel filters, diffusion media pads and blankets, paint overspray filters, high temperature filters, replacement filters for powder booths, compressed air filtration, compressor filters or liquid filtration. We are Canada's single source for filters.

CANADA'S
Paint Booth Specialists!

STONE TUCKER INSTRUMENTS INC.

- Rugged and weatherproof ergonomic design
- Two models - Standard and Advanced.
- All models have memory, statistics, HiLo alarm and a USB port

The New PosiTector 6000

Now smarter, faster and more powerful than ever before

No software required - Browse gage readings and charts using your computer's file explorer, or upload to PosiTector.net

Advanced model

- High contrast reversible color LCD
- Scan Mode stores continuous readings without lifting the probe
- More memory - 100,000 measurements with sub-batching
- Data transfer via USB or Bluetooth Wireless Technology

On-screen help, real time graphing, picture prompting, batch notes and more

*we add
 color to your
 business*

your innovative partner
 for complete finishing
 lines and surface
 technology

Venjakob, the well-known German manufacturer of surface and conveying technology, produces and installs complete system solutions from pre-treatment followed by the painting process, conveyor and handling equipment through to drying and exhaust air filtering. We offer you cost-saving, state-of-the-art solutions engineered to your specific needs!

make your investment
 future-proof and
 minimize your
 consequential costs

One source supplying cost saving, state-of-the art solutions engineered to your specific need.

- Brushing/sanding machines
- Pre-treatment units
- Spray coating machines
- Drying technology
- Handling and conveyor technology
- Air purification plants

VEN BRUSH brushing | sanding **VEN CLEAN** cleaning **VEN MOVE** handling **VEN TRANS** conveyor technique **VEN SPRAY** coating **VEN DRY** drying **VEN CLEAN AIR** exhaust air purification

Together... making waves in the pond

Andicor Specialty Chemicals is a full-service national distributor of specialty chemicals and packaging. Our mission is to be a seamless extension of the suppliers we represent, offering:

- competitively-priced value-added products from some of the world's leading producers
- superior customer service
- knowledgeable and responsive sales staff
- local warehousing and delivery services

HDTs Chemicals provides New Substance Notification services, is Canadian Agent to a number of large foreign chemical manufacturers providing confidential importer of record services.

We also create site specific customized employee training programs for Transport of Dangerous Goods and Workplace Hazardous Materials Information Systems (WHMIS) and are poised to provide Global Harmonized System (GHS) conversions as soon as the regulations are published.

HDTs Chemicals Inc. is a supplier-partner to the Canadian Association of Chemical Distributors (CADC).

HDTs CHEMICALS INC.

Proxel® Preservatives = Sustainable, Formaldehyde-Free Products

Arch understands the importance of being a good corporate citizen and minimizing our environmental impact.

For over two decades, our Building Products portfolio has contained an ever-increasing number of formaldehyde-free products, including Proxel® BZ Plus Preservative.

We offer cost-effective solutions for bringing your products up to today's sustainability standards and the protection you've come to rely on against microbial spoilage.

Contact us to learn more about how we are further progressing to become a responsible part of your environmentally-preferred solution.

Arch Biocides
 Tel: 800.523.7391
 Email: sales@archbiocides.com

Use biocides safely. Always read the label and product information before use.
 Arch Biocides is a business unit of Arch Chemicals, Inc.
 Some Arch® biocides may not be registered or registered for only certain uses in your country.

archbiocides.com

Better protection. Safer chemistry.

Add better protection with
Buckman's Flamebloc® GS
series fire retardants

The **Flamebloc GS series fire retardants** comprise Buckman's new portfolio of environmentally responsible fire retardants designed to meet industry needs for green fire retardant technology.

Flamebloc GS products are composed of a new and novel technology based on amino functional ammonium polyphosphate chemistry.

These clear, water-based, zero VOC products do not require a halogen donor in order to provide char-forming or intumescent substrate protection, meeting a host of standards and specifications required in many industries.

Buckman

Commitment makes the best chemistry.

Chemroy **Are You Ready?**

LOW VOC Solutions- Ready to Launch.

The LOW VOC products you NEED:

- Biocides • Coalescent Agents • Dispersants and Surfactants
- Pigments and Dispersions • Rheology Modifiers
- Waterborne Resins and Crosslinkers • High Solid Resins

From the Manufacturers you Trust:

- AGC
- Arch
- Arkema
- BASF
- Cognis
- Clariant
- Creafil Fibers
- CVC/Emerald
- Dow
- Dura Chemicals
- Elementis
- Eliokem
- FP Pigments
- Hoover
- Huntsman
- Lubrizol
- NYCO Minerals
- PPG

Pigments Rust Inhibitors

- 1 Barium Chromate
- 2 Barium Metaborate
- 3 Basic LeadWhite Silica
- 4 Basic Lead Silica Chromate
- 5 Blue Lead
- 6 Chromium Phosphate
- 7 Dibasic Lead Phosphate
- 8 Iron Phosphate
- 9 Lead Powder
- 10 Molybdate Pigments
- 11 Red Lead
- 12 Strontium Chromate
- 13 Sublimed Blue Lead
- 14 Zinc Borate
- 15 Zinc Chromate
- 16 Zinc Dust

Tomorrow's Sustainable Preservative

Polyphase® PW20

Troy introduces the blueprint for tomorrow's sustainable coatings - Polyphase® PW20 dry film preservative. Polyphase PW20 is a zero-VOC, broad-spectrum fungicide developed to replace conventional solvent-based products in interior and exterior paints.

PMRA-approved • Zero VOC • Low toxicity profile
Contains no alkylphenol-ethoxylates

Polyphase PW20 offers strong protection against fungal attack, yet it is low toxicity and fully compliant with government regulations. Coatings manufacturers can now achieve sustainability and environmental goals without sacrificing performance.

Visit www.troycorp.com for more information on Polyphase PW20, as well as other high performance, environmentally sound technologies from Troy.

KNOWLEDGE = VALUE

COATINGS:

Go 'green' with innovative binder and additive technologies.

ADHESIVES & SEALANTS:

Conserve energy in production and product use.

ELASTOMERS:

Formulate with alternative raw materials, and do it competitively.

CUSTOMERS DEMAND ENVIRONMENTALLY-FRIENDLY PRODUCTS. LET UNIVAR SHOW YOU HOW YOU CAN GO GREEN.

We partner with world class suppliers to connect you to new products and the latest technologies, while supporting 'green' initiatives. Our CASE Specialties group supplies a comprehensive line of sustainable raw materials and products that include: solvents, resins, dispersions, de-foamers, biocides and much more.

Our industry focused specialists have the experience and training to promote technically differentiated products. Consider Univar your partner to help you succeed in sustainable, innovative product development. Technical expertise, quality, knowledge — it all adds up to value.

INNOVATION = VALUE

COATINGS:

*Improved water resistance
for decorative coatings.*

IMPROVED WATER RESISTANCE FOR DECORATIVE COATINGS.

Dow Corning® 87 Additive is a silicone resin emulsion designed for use in acrylic emulsion paints, while Dow Corning® 88 Additive is a silane/siloxane blend that is effective at improving water resistance both in acrylic emulsion paints containing polar solvents and in solvent-based systems.

Dow Corning® 87 Additive and 88 Additive improve water resistance by creating a hydrophobic silicone network in the paint that repels water but is permeable to water vapor coming from the substrate. As a result, water penetration is reduced while cracking and blistering are minimized.

Univar partners with Dow Corning to provide you innovative new products.

INNOVATION > TECHNICAL EXPERTISE > MARKETING > SALES > LOGISTICS > DISTRIBUTION

DOW CORNING

Superior in Clear Coats

MINEX® delivers unique physical and photochemical properties ideally suited for clear coats. Its low refractive index is best utilized in transparent wood and furniture coatings, where MINEX can be loaded up to 20% without excessive haze to improve hardness, light stability and moisture resistance.

Together we go beyond chemistry

Ensemble nous allons au-delà de la chimie

Distributing specialty raw materials to the coatings, inks, plastics and adhesives industries.

We are the only Canadian distributor with a state of the art laboratory providing innovative solutions.

We are your active intermediate.

Distributeur de matières premières de spécialités aux industries de la peinture, de l'encre, du plastique et des adhésifs.

Nous sommes le seul distributeur canadien avec un laboratoire à la fine pointe de la technologie pour des solutions novatrices.

Nous sommes votre intermédiaire actif.

Paint & Coating Manufacturing Equipment & Services

Wet grinding and dispersing technology at its best. The newly combined power of Buhler and Draiswerke provides you with unique know-how in all wet grinding and dispersing applications. Our equipment and process solutions are proven, reliable and tailored to the U.S. market. This is especially evident in the new full-volume Centex™ Pearl Mill™ with exceptional media separation and high flow rates. Buhler and Draiswerke – providing solutions through synergy.

THE CONN BLADE®

Patented blending/dispersing blade design makes radical improvement over old saw tooth designs

POLY

STAINLESS

- * Most efficient and aggressive blending/dispersing blade available.
- * Provides proper combination of pumping action and shear/dispersion essential for fast consistent results.
- * Built in pumping action cuts processing time.
- * Longer life due to heavier gauge construction.
- * Less heat due to shorter required running time.
- * Excellent for high or low speed and high or low viscosity.
- * Supplied with hubs or mounting holes required to retrofit and upgrade present equipment.
- * Pumping blades without teeth are available and are excellent for gentle blending and agitation.

 CUSTOMIZING

Fielding is a leader in chemical and refrigerant repurposing and chemical procurement. Customers rely upon Fielding for **Cradle to Cradle®** Care to manage molecules around the world.

With over 50 years of cleantech experience, Fielding applies science and its award winning technologies to produce quality recycled chemicals.

Through its international network of suppliers, Fielding sources chemicals and manages their safe, just-in-time delivery to the customer's door.

Whether you need to source chemicals or find a green choice for used chemicals, let Fielding bring **THE SCIENCE OF SUSTAINABILITY™** to your triple bottom line.

Fielding is honoured to be the winner of the MBOT "Clean and Green" Award. Recognizing Fielding's significant proactive commitment to implementing "green" business processes.

Fielding's President & CEO Ellen McGregor has been awarded the MBOT "Business Person of the Year". Acknowledging her exceptional leadership and her contributions to the community in time, energy and resources. Congratulations Ellen.

CLASSIFIED

Do you want to work for a company that:

- Is a Leading supplier of products requiring high-performance metal finishing?
- Has a strong focus on people and culture
- Selects people based on Fit, Talent and Skill

If so, then Lincoln Industries might be the place for you. Formerly Lincoln Plating, Lincoln Industries goes beyond simple metal finishing and metal plating services to provide a complete solution offering, including ceramic coating, tube fabrication, polishing, packaging, assembly, design support, engineering, manufacturing, logistics and warehousing.

Lincoln Industries is currently recruiting for a **Process Control Manager**.
Please go to www.lincolindustries.com/careers for the complete job description and Apply Today!

nai
COATING SHOW
OCT2011

OCTOBER 4-6, 2011
CINCINNATI, OHIO

From liquid to powder, we've got you covered!

Join us for a show focused entirely on providing industrial coatings resources!

- Technical presentations by key representatives from the liquid and powder coating industry
- Session topics on the prevention and reduction of coating failures, coating application methods, corrosion under insulation, and pipeline field coatings
- Audience of 1,800+ engineers, asset managers, coating contractors and applicators, quality control managers, and technical directors
- New Technical Help Zone features round table discussions with industry experts to explore attendees' topical questions and issues.

We Bring All the Pieces to the Table

For over thirty years, Chemcraft® has been proudly setting standards for industrial wood finishes. We've earned a reputation for innovative technologies and cost efficient systems; a reputation that will only grow stronger now that we're part of the AkzoNobel family. Our access to a worldwide network of technology and innovation experts will take our products and systems to a whole new level. A large part of that innovation is our eco-strategy; sustainability is a deeply embedded part of our philosophy, and the Chemcraft® brand of products embraces this vision fully. Our eco-friendly products give you lower Volatile Organic Compound (VOC) emissions without sacrificing performance properties and proves that there doesn't have to be a trade off for sustainability. Combine all that with our commitment to superior customer service and support, and you'll see that we have all the pieces in place to continue in our role as the industry leader for years to come. Chemcraft® is the *obvious* choice for industrial wood finishes. Visit www.chemcraft.com to locate your nearest distributor.
