DARE TO TAKE A CLOSER LOOK

LACQUERS & VARNISHES

All our products have excellent non-yellowing properties, they dry rapidly and respect the most updated norms on V.O.C. and HAP regulations.

CANGUARD TITANIUM

Our best high solid, post-catalyzed conversion varnish developed for a variety of interior woodwork.

UV CURED SYSTEMS

These products are custom-made and specifically designed for your production line.

MAXICURE UV SOLVENT

A solvent-based UV cured finish designed to be applied by spray application as a topcoat or as a self-seal product.

WATERBORNE FINISHES

All of our series are competitively priced, low in VOC and formaldehyde free.

AQUA GUARD CLEAR

An acrylic self-seal water-based topcoat with exceptional clarity.

POLYESTERS & POLYURETHANES

Highest performing European technology available on the market.

POLYURETHANE WHITE TOPCOAT

H360 series is a high quality polyurethane finish with exceptional resistance properties, ideal for both the finishing of kitchens and furniture.

SPECIALTY PRODUCTS

We also develop products on demand for metal, plastic and more.

Company Alphabetical Listings

A & W Products, Inc.

1041 Astondale Rd., Bishop, GA 30621
P 706-769-9012
info@aw-products.com
www.aw-emulsions.com

Walker Whitmire

A & W Products manufactures a complete line of wax emulsion formulations for paints and coatings, treatable wood products, engineered wood, and coated paper. Additives are paraffin, carnauba, slack wax, soy wax, and silicone blends. Products custom formulated for specific needs.

A Brite Company

3217 Wood Drive, Garland, TX 75041
P 214-291-0400
F 214-291-0300
info@abrite.com
www.abrite.com

A Brite is a unique American owned international business involved in the development, manufacturing and marketing of a full line of proprietary chemicals for the plating, anodizing, aluminum extrusion, phosphate, powder coat and environmental industries. Processes include: cleaners for all base metals including aqueous and special purpose; plating processes for silver, zinc, zinc alloys, copper, nickel, chrome, chrome substitutes, tin and cadmium; metal treatment products for bright dipping, phosphating and specialty products including chr Hasselomat, lacquers, rust preventatives and environmental products for waste treatment needs.

A.S. Paterson Company Limited

1110 Sheppard Ave. East - 404,
Toronto, ON M2K 2W2
P 416-222-3333
F 416-222-5034

rpateron@aspateron.com

www.aspaterson.com

Rod Paterson

A.S. Paterson Company is a 90 year old Canadian distributor of pigments, dyes, waxes, resins and additives for the paint, coatings, ink, plastics and specialty chemical industries. Technical sales representatives located across Canada help companies solve problems. See Our Ad on Page 83

ABB Inc.

201 Westcreek Blvd, Brampton, ON L6T 5S6
P 905-460-3000
F 905-460-3019
www.abb.ca

ABB is a leading supplier of industrial robots – also providing robot software, peripheral equipment, modular manufacturing cells and service for tasks such as welding, assembly, painting, picking, packing, palletizing and machine tending. Key markets include automotive, plastics, metal fabrication, foundry, pharmaceutical and food and beverage industries. A strong solutions focus helps manufacturers improve productivity, product quality and worker safety.

ACE Equipment Co.

4725 Manufacturing Rd., Cleveland, OH 44149
P 216-267-6366
F 216-267-6366

sheran@armaturecoil.com

www.armaturecoil.com

Scott Heran

Family owned since 1919, ACE Equipment manufactures burn off and curing ovens. Their design provides high efficiency, uniform temperatures and long life.

Aceto Corp.

4 Tri Harbor Ct., Port Washington, NY 11050
P 516-627-6000
F 516-627-6093
aceto@aceto.com
www.aceto.com

Aceto offers a range of chemicals for specific use in epoxy, urethane, UV-cured, powder, and polyurea coatings. These include performance additives and a complete line of organic pigments, TiO2 and free-radical and cationic photoinitiators.

ACT Test Panels LLC

273 Industrial Dr, Hillsdale, MI 49242
P 517-439-1485
F 517-439-1652
sales@acttestpanels.com
www.acttestpanels.com

Brad Kimpell

Wide range of test panel products and services including ACT Certified Test Panels for coatings R&D; utility grade TRU panels for spray outs and hiding evaluations. ACT also operates an ISO17025 accredited test laboratory specializing in the evaluation of coating performance.

Advanced Chemical Co.

105 Bellows St, Warwick, RI 02888
P 800-553-3568
info@advchem.com
www.advchem.com

Full service precious metals refiner of gold, silver, platinum, palladium and rhodium; manufacturer of proprietary precious and non-precious metal electroplating processes and other specialty chemistries. ACC holds the following certificates: ISO-9001:2008, ISO-14001-2004, OHSAS 18001, R2,ITAR.

Adwest Technologies, Inc./CECO Env.

4222 East La Palma Ave., Anaheim, CA 92807
P 714-632-9801
F 714-632-9812

bcannon@OneCECO.com

www.adwestusa.com

Brian Cannon

Adwest is a CECO Environmental Company supplying RETOX regenerative thermal oxidizers and VOC concentrators for VOC control on finishing, spray booth, surface coating and curing oven applications. RETOX RTOs provide flameless NOx-free operation with up to 97 per cent primary heat recovery for low energy consumption.

AGC Chemicals Americas

55 E. Uwchlan Ave., Exton, PA 19341
P 805-428-6743
F 805-583-5917

winn.darden@us.agc.com

www.lumiflonusa.com

Winn Darden

Supplier of LUMIFLON fluoropolymer resins used to make ultra-weatherable coatings for architectural, industrial maintenance, aerospace, alternative energy, and automotive applications. Products include solvent based resins, solid resins for low VOC coatings, water based resins and powder coating resins.

Akzo Nobel Wood Coatings Ltd.

155 Rose Glen Rd, Port Hope, ON L1A 3V6
P 905-885-6388
F 905-885-7587
chemcraft.ca@akzonobel.com
www.chemcraft.com

Jeff Snyder

Innovative and sustainable solutions for wood coatings and adhesives. Leaders in coatings for cabinetry, wood & vinyl flooring, window & doors, building products, residential, office & contract furniture, and distribution through Chemcraft® brand. Adhesives for building products, flooring & furniture. See Our Ad on Page 99

AkzoNobel Powder Coatings

150 Columbia Street, Reading, PA 19601
P 800-367-3318
F 610-603-7584
www.interpon.us

AkzoNobel Powder Coatings is a world leader in powder coatings, offering effective coatings solutions for a wide range of applications including: furniture, automotive, IT, appliance, the architectural market and general industry.

Alberdingk Boley Inc.

6008 West Gate City Boulevard,
Greensboro, NC 27407
P 336-454-5000
F 336-454-5007

info@alberdingkusa.com

www.AlberdingkUSA.com

Yasmin Sayed-Sweet

Global supplier of innovative water-based acrylic emulsions, NMP-free & solvent-free polyurethane dispersions, UV-curable dispersions, castor oil and linseed oil polyols and acrylic polyurethane copolymers. Supplier also of environmentally friendly water-based emulsions and dispersions to the paint and coatings, adhesives, and graphic arts industries. US headquarters is in Greensboro, NC. See Our Ad on Page 78

Aldonex, Inc.

2917 St. Charles Rd. , Bellwood, IL 60104
P 708-547-5663
F 708-547-5738
sales@aldonex.com
www.aldonex.com

Alan Miller

Manufacturer of DC power supplies. SCR rectifiers, manual or motorized variable transformers, tap-switch rectifiers, periodic reversing units, water-cooled rectifiers, SCR pulse rectifiers, modular power supplies, and Switchmode power supplies. Also, new and used DC power supplies and other equipment, parts and service.

Allcolour Paint Limited

1257 Speers Road, Oakville, ON L6L 2X5
P 905-827-4173
F 905-827-6487

rchapman@allcolour.com

www.allcolour.com

Allcolour produces a wide range of high-quality, high-performance coatings for OEM, general industrial, and DBO-duty applications. In business for over 40 years, Allcolour offers the latest technology, environmentally responsible products manufactured in a completely renovated state-of-the-art facility.

All-Flo Pump Co.

7750 Tyler Blvd., Mentor, OH 44060
P 440-269-8155
sales@all-flo.com

www.all-flo.com

Paul McGarry

All-Flo manufactures rugged, lube-free, non-stall/freeze air diaphragm pumps. Serving a variety of industries, including oil & petroleum, petrochemical, food & beverage, mining and construction, All-Flo has a global network of distributors to ensure local availability and service. All-Flo offers a versatile range of durable and reliable pump solutions that can be customized for any application. All company products are made in America.

Alliance Industrial Masking, Inc.

200 South Ludlow Street, Dayton, OH 45402
P 937-681-5569

chris@custommasking.net

www.custommasking.net

Chris Gray

Provider of custom tape masks and offering next-day delivery. With company manufacturing process, no die is required. This eliminates the time and cost associated with a manufactured die.

Allied Cans Limited

56 Bramstele Road, Unit-6, Brampton, ON L6W 3M5
P (905) 450-5100
F (905) 450-5101

awan@alliedcans.com

www.alliedcans.com

AFZAL M. AWAN

Manufacturer of UN & non-UN steel pails (open head & closed head), paint cans (unlined, grey lined & gold lined) and F-style oblong cans,

Allied PhotoChemical Inc.

48 N. Airport Dr., Kimball, MI 48074
P 810-364-6910
F 810-364-6933

dsweetwood@alliedphotochemical.com

www.alliedphotochemical.com

Dan Sweetwood

UV technology company. Clear and color coatings, UV dielectrics, stereolithographic resins, UV specialty formulations, prepared for specific needs.

All-Weld Company Limited

P 416-299-3311
allweld.ca@gmail.com
www.allweld.ca

Robin Davis

All-Weld Company Ltd. provides custom solutions in machining, engineering, and metal fabrication. Offering industrial pressure vessels, heat exchangers, and process equipment, which meet global standards.

Aluminum Anodizers Council

1000 N. Rand Road, Wauconda, IL 60084
P 847-526-2010
F 847-526-3993

mail@anodizing.org

www.anodizing.org

Suzanne Spohr

The Aluminum Anodizers Council (AAC) is the international trade association engaged in aluminum anodizing. The Council's mission is to support members through education, advocacy, and promotion. See Our Ad on Page 92

Aluminum Surface Technologies

1055 Pachino Crt, Burlington, ON L7L 6B9
P 9053326688
F 9053325492

sales@surfacetech.ca

www.surfacetech.ca

ISO registered rapid turnaround solutions provider specializing in Engineered Coatings, Aluminum Finishing, Casing Impregnation and non-ferrous Heat Treating. Solutions available for most metals addressing corrosion, surface hardness, mold release, friction, wear and sticking/galling even for pharmaceutical/food/medical equipment (CFIA/FDA approval available).

AlumiPlate, Inc.

8960 Springbrook Dr., Minneapolis, MN 55433
P 763-786-3788
F 763-786-8518

info@alumiplate.com

alumiplate.com

Electrodeposited aluminum systems. Developer and provider of unique electroplating processes, equipment and know-how for applying high purity aluminum to solve exacting corrosion, appearance or performance problems.

Amariko Inc.

PO Box 282, Clarendon Hills, IL 60514
P 800-262-7456
info@amariko.com
www.amariko.com

Thomas Marik

Amariko provides business management computer software for finishing job shops, including office and shop-floor systems, custom programming, onsite services and prompt support.

American Colors, Inc.

P.O. Box 397, Sandusky, OH 44870
P 419-621-4000
F 419-625-3979
buss@americancolors.com
www.americancolors.com

American Colors has made coatings and pigment dispersions since 1975. Systems include: plasticizer, aqueous, epoxy, polyester and others. Custom color house capable of producing a coating or colorant to nearly any specification.

American Plating Power, LLC

Fort Myers, FL 33907
P 239-275-5877
F 239-275-4959
lbrosius@americanplatingpower.com
www.americanplatingpower.com

Waasy Boddison

American Plating Power offers a full range of DC and Reverse Pulse power supplies, along with process controllers and Windows-based control software. Additionally, full service department offers repair, preventive maintenance, rectifier calibrations and parts for all brands of rectifiers.

See Our Ad on Page 43

American Ultraviolet Company

212 South Mt. Zion Road, Lebanon, IN 46052
P 800-288-9288
F 765-483-9525

Mstines@auvco.com

americanultraviolet.com

Meredith Stines

Manufacturers of ultraviolet curing systems since 1960, both standalone and conveyorized. Output includes 300 to 600 watt per in., mercury and metal halide and gallium systems. Custom systems a specialty. Full line of UV roll coatings machines from 20 to 80 in. wide.

AMETEK Brookfield

11 Commerce Blvd., Middleboro, MA 02346
P 508-946-6200

kathy.durant@ametek.com

www.brookfieldengineering.com

Robert G. McGregor

Viscosity measurement/control technology. Manufacture rotational viscometers/rheometers, in-line process viscometers, texture analyzers for the food industry and powder flow testers for manufacturers/processors of powder-based materials. Support and service worldwide.

AMETEK Fluoropolymer Products

455 Corporate Blvd., Newark, DE 19702
P 302-456-4431
F 302-456-4444

info.fpp@ametek.com

www.ametekhaveg.com

AMETEK Fluoropolymer Products specializes in high purity and highly corrosion resistant heat exchangers and tubing for pickling, plating, galvanizing, acids, chemical processing, metalworking, aerospace, and other applications. Its core products are based on fluoropolymer materials.

Amiberica, Inc.

3701 S. Ashland Ave., Chicago, IL 60609
P 773-247-3600
F 773-247-3069

diazw@amiberica.com

www.amiberica.com

William Diaz

Fabricators of complete finishing systems, powder booths, washers, ovens and conveyors. Hook cleaning equipment, burn-off furnaces and the Pyro-Strip fluidized sand tank system. Equipment designed for efficiency and durability.

Amity International

P. O. Box 5254, , Anderson, SC 29623
P 864-622-2233
F 864-622-2234

sales@amityinternational.com

www.amityinternational.com

Development of alternative products designed to overcome environmental and safety restrictions that confront traditional solvents. Amity offers aqueous, semi-aqueous and solvent based products for critical cleaning.

Ampere Metal Finishing Ltd.

854 Westport Cres., Mississauga, ON L5T 1N5
P 905-670-5275
F 905-670-8941

ap@amperemetal.com

www.amperemetal.com

Audrey Pignatell

Ampere Metal offers: phosphate (zinc & manganese), passivation, black oxide on steel & stainless steel, chemical conversion coating, dry film lubricants, PTFE coatings. Large 15-ft tanks, 4000 lifting capacity.

Amsax Technologies, Inc.

704 California Avenue, Rochester, PA 15074
P 412-292-0127
F 724-201-0051

info@amsaxtech.com

www.amsaxtech.com

Jon Aries

Amsax produces process lines; batch, continuous and fully automated. All systems are engineered and commissioned by in-house employees; including controls, hoists, tanks, ventilation and WWT. Amsax's software package WinHoist optimizes random loading, with total integration and provides full data documentation.

Amsyn Inc.

1011 High Ridge Road, Stamford, CT 06905
P 203-329-6500

murphy@amsyn.com

www.amsyn.com

Rich Murphy

Regardless of industry or segment, we can connect you with the chemical ingredients you need. Key industries we service include: adhesives, sealants, resins, agriculture, crop protection, biotechnology, buffers, fine chemicals, coatings, paints, cosmetics, personal care, electronics, metal finishing, food, beverage, oilfield, lubricants, pharmaceutical, medical, photographic film, plastics, composites, polymers, monomers, pulp, paper, soaps, detergents, surfactants, specialty chemicals, textiles, dyes, inks, water treatment.

Dean Marino

Dormer Finishing Systems Ltd. is the leader in the area of industrial and automotive refinishing systems in Western Canada for over 33 years. We are a highly motivated team dedicated to providing the best products and services available in the industry. Our strength is generated from our commitment to our clients, our industry, our employees and ourselves. When making your decision based on experience, service and quality, you can be confident that Dormer Finishing Systems Ltd. will meet your finishing needs. The best finish starts here!

Dow Coating Materials

100 Independence Mall West, Philadelphia, PA 19106-2399
P 800-447-4369

dowcoatingmaterials@dow.com
www.dowcoatingmaterials.com

Dow Customer Information Group

Dow Coating Materials leads innovation in technologies that help advance the performance of paints and coatings. Backed by full-service technical teams, our broad portfolio of products include binders, dispersants, rheology modifiers and surfactants for a wide variety of end markets.

Dow Corning Corp.

2200 West Salzburg Rd.,
Midland, MI 48686-0994
P 989-496-4400

www.dowcorning.com

Comprehensive selection of innovative silicon-based additives, resins and binders for the coatings industry and provides supportive services and solutions tailored to specific business needs of the global coatings industry.

DSM Coating Resins

730 Main St., Wilmington, MA 01887
P 978-658-6600

jon.cronin@dsm.com
www.dsm.com

Jon Cronin

Specialty coating resins supplier of waterborne and solvent borne polymers. Broad product line includes waterborne acrylic emulsions, polyurethanes, hybrid polyurethanes, and water dispersed alkyds. DSM also sells high solids solvent based polymers.

CASF CONFERENCE 2017: Surviving or Thriving in the Trudeau and Trump Era

We are living in politically charged and uncertain times! CASF Conference 2017 is an excellent opportunity to discuss with fellow industry finishers, suppliers and professional service providers if they are 'just surviving or happily thriving' in today's environment of rising taxes, regulation and red tape. More importantly, what decisions can you make today that will help to secure the future of your business? Our expert speakers will educate you on the latest trends and developments affecting our industry. Don't miss out on Canada's premier one-day surface finishing event!

Wed Nov 15, 2017
8:30am – 4:30pm

(Registration opens: 8:00am)

Hilton Garden Inn Toronto, Vaughan
3201 Highway 7 West, Vaughan, ON

**Early Bird Registration:
Before Oct 1, 2017**

Attendees:

CASF Member Attendees:
\$225 (\$275 after Oct. 1)

Non-CASF Member Attendees:
\$275 (\$325 after Oct. 1)

Exhibitors:

CASF Member Exhibitors:
\$450 (\$550 after Oct. 1)

Non-CASF Member Exhibitors:
\$600 (\$700 after Oct. 1)

Your conference fee includes:

Access to all guest speakers and presentations, continental breakfast, refreshments, and buffet lunch.

Space is limited! Register today to confirm your attendance.

For more information on event details and registration visit www.CASF.ca

Topics and Guest Speakers:

Special Guest Speaker and Keynote Address: Christian Richter, Executive Vice President, National Association for Surface Finishing (NASF) and President, The Policy Group in Washington, DC.

Christian will provide an insider's glimpse into American politics and their potential impact on Canadian business and policy making in addition to a global perspective on surface finishing.

Government Programs Designed to Aid Manufacturers with GHS Emissions Reductions
Nancy Coulas – Director, Energy & Environment Policy Canadian Manufacturers & Exporters (CME)

Canadian Industry Programs for Energy Conservation & Incentives.
Richard Dollighan – Sr. Industrial Officer, N.R. Canada / CIPEC

Advances in Recycling & Recovery Technologies in the Finishing Industry
Allen Hayes – President of Chemtech Systems, Muskegon, Michigan

CASF Update & Canadian Environmental/Regulatory Outlook
Michael Kuntz, Bob Smith – President/VP, CASF
Stephanie McCallum – Government Liaison, CASF

Changing Materials Without Reducing Performance Keith Legg – Chief Technology Officer, Corredsa LLC

New Technology Overview in the Surface Finishing Industry
Dr. Sebastian Kuehne – Engineering & R&D Manager, Atotech

Economic, Financial & Commodity Markets Outlook
Sarah Howcroft – Economist at BMO Capital Markets

Nickel Development: Research & Risk Update
Dr. Hudson K Bates – Executive Director & Toxicologist, NiPERA

...and other important topics that are affecting our industry today!

Who Should Attend?

Business owners, supervisors, managers, continuous improvement and environmental systems personnel, sustainability managers, and employees, consultants or professional service providers responsible for reducing costs and liabilities through innovative surface finishing technologies.

Dubois Chemical Canada Inc.

1155 North Service Rd. West Unit 6,

Plastico Industries has emerged into Aquece Coating Services. Aquece is an environmentally friendly dip process that allows complete coating of components. Modern plant located in Cambridge, ON, has the 800/900 Series – an environmentally friendly, flat black, water based coating. Plastico's new Aquece line was designed to handle all size parts, with tank dimensions of 12' L X 2.5' W X 4.5' H.

PlateChem International Inc.

P 416-882-3008
platechem@platechem.com
www.platechem.com
Robbie Ouyang

PlateChem International Inc. is a special chemical manufacturer/distributor delivering chemicals intermediates for the electroplating industry. We offer products that represent the key ingredients in the formula of Copper/Nickel plating brighter additives. For example: PAP, BMP, ATPN, BEO, BOZ, PA, PO, etc. We also source other chemicals to fulfill your needs in the plating process.

Our Main products:

(1) PAP (Propargyl alcohol propoxylate) is used to formulate brightener additives in the electroplating industry. PAP performs well in combination with other top brighteners and basic brighteners. It has the advantage over PME and PA that its concentration is less critical, and the bath is more able to accommodate fluctuations in concentration above and below the optimum.

(2) BMP (2-Butyne-1,4-diol propoxylate) is used to formulate brightener additives employed in the electroplating industry. It is used as a top brightener in nickel electroplating baths.

(3) ATPN (propanoic acid, 3-[aminoiminomethyl]thio-) is used to formulate brightener additives employed in the electroplating industry.

Plating Systems & Technologies, Inc.

317 N Mechanic St, Jackson, MI 49201
P 517-783-4776
www.mechanicalplating.com

PS&T was founded in 1985 to serve the market for mechanical plating.

Fred Wellman

Manufacturers of N-Terpinal, environmental safe chemicals designed for cleaning and stripping: powder coating, epoxy, e-coat, ink, polyester resin, oil, grease, rust and more. Products are low VOC, non-flammable, non-hazardous and biodegradable.

X-Rite, Inc.

4300 44th St. SE, Grand Rapids, MI 49512
P 616-803-2100
andresfranco@xrite.com
www.xrite.com

Andres Franco

X-Rite uses technologies such as tools that match digital with physical colors, colour matching booths that offer real-time control, and portable instrumentation that allow for quick, consistent verification of specific colours at multiple sites.

Yamada America, Inc.

955 East Algonquin R.,
Arlington Heights, IL 60005
P 800-990-7867
F 847-631-9274
sales@yamadapump.com
www.yamadapump.com

Yamada designs and manufactures a broad lineup of air-powered, double diaphragm pumps, featuring wetted materials in 316 stainless steel, aluminum, cast iron, polypropylene. Fluid temperatures can range from -40° F to 350° F and pressure to 200 psi. Pumps are self-priming, shear sensitive, intrinsically safe, portable and can run dry.

Yaskawa America, Inc.

Motoman Robotics Division,
Miamisburg, OH 45342
P 937-847-6200
F 937-847-6277
info@motoman.com
www.motoman.com

Yaskawa Motoman offers manufacturers a wide range of robotic painting products and technology. Flexible, high-performance robots increase finishing quality, consistency and throughput, while lowering operating costs and decreasing wasted material (reduces environmental impact).

The Science of Performance

Industrial Wood Coatings

Axalta Coating Systems is pleased to welcome Industrial Wood Coatings into our portfolio of high-performance coating products. Since the 19th century, Axalta has developed, manufactured, and provided liquid and powder coatings to diverse industries.

From light vehicles, commercial vehicles, and refinish applications to electric motors, building products, pipelines, kitchen cabinetry, furniture and appliances, our coatings are designed to prevent corrosion, increase productivity, and add beauty.

Around the world, our customers rely not only on the market-leading technology within our products, but also on the expertise of our dedicated sales and customer service organizations. **For more information call 800.788.4907.**

A Brand You Can Trust

AVAILABLE NOW IN CANADA

For over 50 Years Gemini has been a brand you can trust for wood finishing with excellence, **INSIDE AND OUT!**

The Gemini Product Family Includes:

- Stains and Glazes
- High Build/Solids Lacquers
- Water Clear Lacquers
- Clear and White Precatalyzed Lacquers
- Clear and White Conversion Varnish
- Pigmented Sealers & Topcoats
- Clear and White Waterbornes
- TWP® Exterior Wood Protectants
- Touch Up Supplies

DYNAMIX Inc.

Dynamix Fume Suppressants for Hexavalent Chromium Plating Solutions

Specifically developed to reduce the surface tension to less than 30 dyne/cm
in decorative and functional hexavalent chrome plating applications.

Dynaplate CR FSL

- Perfluorooctane sulfonate (PFOS) free.
- Perfluorooctanoic acid (PFOA) free.
- Very minimal foaming.

Dynaplate CR FS

- Perfluorooctane sulfonate (PFOS) free.
- Perfluorooctanoic acid (PFOA) free.
- Low foaming.

Dynaplate Cr FSN

- Perfluorooctane sulfonate (PFOS) free.
- Perfluorooctanoic acid (PFOA) free.
- Perfluorinated compound (PFC) free.
- Halogenated compound free.
- Completely fluoride free.

KONTEK

PROCESS WATER MANAGEMENT

Your **ONLY** source for
Professionally Engineered
solutions to **exceed** YOUR facility's goals

40 Years in the Industry

THE Metal Finishing Industry's #1 TOTAL Water Treatment Solution Provider

ONE STOP
comprehensive solutions
for ALL aspects of **Metal
Finishing Water Treatment
Recovery and Reuse**

Trusted Partner to world
class industry manufacturers
across the globe

MAXIMIZE operating efficiencies
while **MINIMIZING** operating
costs with Kontek's in-house expertise

Creative, unique solutions address
both environmental concerns AND financial parameters

A Proudly Canadian Company

Tapes and Custom Masking Solutions for Industrial Finishing Processes

www.daemar.com

Essential Components for Industry

TAPES

- High temperature applications
- Polyester tapes
- Polyimide tapes
- Ultrabake silicone tape
- Glass cloth tape
- Widths from 1/8" up to 9"

DISCS

- High temperature applications
- Standard shapes include: donuts, squares, rectangles and dots
- Materials available: polyester, polyimide, glass cloth, crepe paper, aluminum foil, lead foil, teflon and vinyl

CUSTOM MASKING

- Prototype tooling
- Custom moulded masking
- Custom die cut masking
- Custom hanging solutions

SAMES KREMLIN

NEW

**HIGH PERFORMANCE SPRAYER
AUTOMATIC POWDER BELL**

**SAMES KREMLIN introduces the
NEW InoBell™ Powder Bell Applicator**

- One InoBell® replaces up to 3 guns
- Reduces or eliminates orange peel
- Higher flow rates than automatic guns
- More uniform film build
- Up to 40" spray pattern
- High first pass efficiency
- High transfer efficiency

Bond | Protect | Beautify

Watch how Pollution Control Burn Off Ovens
Clean with Heat!

www.pcpconline.com/cfcm

The industry leader in thermal stripping and parts reclamation,
Pollution Control Cleaning Ovens –

- ✓ *safely remove paints, epoxies, powder coating, and other combustibles from hangers, racks, hooks and other metal parts.*
- ✓ *are fully automatic and self-adjusting – simply load your parts, set your cycle time and the furnace does the work.*
- ✓ *powerful afterburner eliminates all hydrocarbon emissions making them virtually pollution free.*

For a Free Test Clean

SmarTest by ElektroPhysik

Coating thickness testing using your smartphone or tablet...what a smart idea !

ElektroPhysik's
 High Performance
 MiniTest 700 Series
 with Digital SIDSP®
 Sensors just got smarter !

ElektroPhysik's Digital
 SIDSP® Sensors with the
 New Bluetooth® Sensor
 Transmitter paired with the
 Free SmarTest APP lets
 you take readings and store
 them on your smart device !

The SmarTest does not consume data
 from data plans !
 even operates in "airplane mode"

User selectable units of
 measure, mils or microns

Reading list		
	Ferrous	Non-Ferrous All
12	2.660	mils Ferr
11	2.675	mils Ferr
10	2.645	mils Ferr
9	2.655	mils Ferr
8	2.655	mils Ferr

SAMES KREMLIN

COMPLETE INTEGRATED SOLUTIONS
 FOR TODAY'S MARKET DEMANDS

- Automatic & manual paint spray guns
- Rotary electrostatic bell atomizers
- Fluid dispense & mixing systems
- Turnkey general industrial systems

SAMES KREMLIN Inc., a manufacturer of Kremlin Rexson & SAMES brand products, delivers comprehensive spray equipment, integrated solutions, and packages for all your finishing & dispensing needs.

High-Precision Conductivity Measurement with **SIGMASCOPE® SMP350**

For many non-ferrous metals, knowing the electrical conductivity enables assumptions concerning alloy composition, heat treatment, or microstructure of the material.

Outstanding features

- Rapid and simple on-the-spot conductivity measurement of non-ferromagnetic metals
- Automatic temperature compensation of the conductivity (integrated or external sensor)
- Automatic curvature compensation for a known curvature diameter (down to 13 mm)
- Certified traceable calibration standards (MS/m, % IACS)
- Powerful FISCHER DataCenter Software for quick and easy data evaluation and customized report generation

NEW Probe Features (from S/N 305,600):

- All PosiTector 6000 probes now take over 60 readings per minute.
- Fast Mode increases measurement speed to over 90 readings per minute.
- Scan Mode increases measurement speed to over 180 readings per minute.

NEW Advanced Gauge Scan Modes (from S/N 730,000):

- Normal Scan Mode takes continuous readings without lifting the probe and can be used with other modes.
- Statistics Scan Mode takes continuous readings and records the average, standard deviation, min/max thickness after each scan.
- Limited Count Average Scan Mode takes continuous readings up to a user-specified count.

DeFelsko's PosiTector® 6000 Coating Thickness Probes offer new enhancements to speed up your inspection process.

NEW Location!
 51 Scott Street West
 St. Catharines, ON

Filter Pump Industries
Stainless Steel Filter Systems
Design Your System!

- Variety of elastomer materials. • 150 psig rated @200 degrees F
- Accepts standard #1 or #2 size bag
- Eye bolt closure provided for added strength
- Adjustable chamber leg assembly for easy/simple installation
- Standard high finish interior/exterior, optional electro-polish finish available
- Standard 2" NPT or ANSI flange, optional 3" NPT or ANSI flange available
- Available stand alone or coupled with Penguin's new metallic PAD pump in a filtration system.
- Cartridge Options include: Pleated, String, Carbon, Specialty, ULTRA-D Submicron.
- Pump options: HSC, AODD, Mag, Vertical.

Penguin Air Diaphragm System (PADS)-Bag

Service is Our Best Product!

Dynatronix[®]

NEW

DTX DC Rectifiers

- ▶ Models from 0-100 volts and 0-100 amps
- ▶ Maximum output: 2400 watts forward & reverse
- ▶ Sealed enclosure & connectors for harsh environments
- ▶ Ethernet/IP and Analog Communications
- ▶ Package size: 3.5" x 8.5" x 18" (HWD) w/ 4.3" color display
- ▶ ETL, CSA & CE Certified

Precise and accurate plating on both plastic and metal intricate recessed geometries.

WWW.DENORA.COM

Adding Value to the Surface

The **surface finishing industry** is driven to provide superior plated components, this requires high quality anodes.

Providing uniform copper/nickel/chromium plating thickness, preventing over coating and plating burns.

De Nora "Dimensionally Stable Anodes", with their engineered precious metal coatings applied on Grade 1 titanium substrates, ensure durable, reliable, and high performance plating operation.

Our precious metal-coated titanium anodes are lightweight and geometrically flexible assuring ease of installation, quick change-out and long service design features for recoatability. De Nora DSA® anodes provide a superior alternative to soluble and environment-unfriendly lead alloy anodes.

DE NORA Tech product offering includes:

- Custom MMO Auxiliary anodes
- Primary MMO anodes for Tri-chrome
- MMO Balancing anodes
- Platinum plated Ti/Nb anodes

German Engineering

The No. 1 in Refinish

Whether it be precious cars, exclusive musical instruments or designer furniture: Whenever high gloss surfaces are desired, SATA is the first choice. SATA spray guns, respirators, air filter regulators and a comprehensive range of accessories are exclusively developed and manufactured in Germany. As a result, demanding users worldwide can be sure to work with perfect equipment, ensuring optimum conditions for excellent finishes.

We are Azelis Canada

As part of Azelis Americas, market leader in specialty chemical distribution; we will continue to grow by creating value for our customers with quality products, unparalleled technical support and strategic logistical solutions. We have the ability to leverage our global team of specialty chemical experts while maintaining our regional focus and attention. With a strong passion for our Principals and Customers, Azelis Canada's CASE Division is prepared to solve the toughest industry challenges faced by Canadian manufacturers. We look forward to growing your business!

Better protection. Safer chemistry.

Get greener, safer
Flamebloc® chemistries
from Buckman.

Buckman's Flamebloc GS series of fire retardants are formulated to provide outstanding protection for today's natural and synthetic products. Their innovative mix of unique chemistries, including amino functional ammonium polyphosphate, are clear, water-based, and contain little or no VOC. Best of all, they do not require a halogen donor to provide intumescent and char-forming substrate protection. There are many options, too, to help you meet the various standards and specifications required by your industry.

Buckman

Commitment makes the best chemistry.

NEW – Flamebloc Foam Protect
A new intumescent coating code approved (CAN/ULC-S-124) for spray foam insulation.

World-class products,
comprehensive support and
uncompromising service

At L.V. Lomas we have over five decades of service, helping paint and industrial coating formulators meet and exceed the most demanding objectives. As one of the largest specialty chemical distributors in Canada, our technical sales and marketing teams work with our customers to provide the winning solutions to succeed.

When you make L.V. Lomas your partner,
we make our success contingent upon yours.

SPECIALTY POLYMERS, INC.
 INNOVATIVE • RESPONSIVE • FLEXIBLE

A different kind of polymer company.

Specialty Polymers has more than 45 years of product development. Our diverse product line spans multiple industries and is truly **technology-driven**.

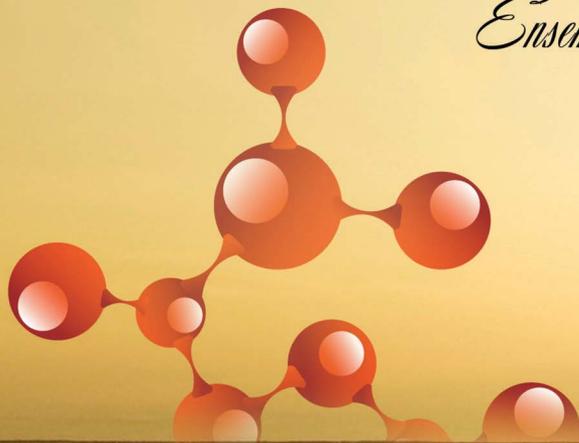

With manufacturing facilities on both coasts, nationwide sales coverage and products tailored to meet your needs, we offer a one-of-a-kind **customer focus**.

Family-owned and operated since 1969, we have a unique **family culture**.

www.specpoly.com
 1-800-770-7523

*Together we go **beyond** chemistry*

*Ensemble nous allons **au-delà** de la chimie*

Distributing specialty raw materials to the coatings, inks, plastics and adhesives industries.

We are the only Canadian distributor with a state of the art laboratory providing innovative solutions.

We are your active intermediate.

Distributeur de matières premières de spécialités aux industries de la peinture, de l'encre, du plastique et des adhésifs.

Nous sommes le seul distributeur canadien avec un laboratoire à la fine pointe de la technologie pour des solutions novatrices.

Nous sommes votre intermédiaire actif.

**CUSTOMER SERVICE • SERVICE À LA CLIENTÈLE

Connecting Chemistry

Paint & Coatings Raw Materials

BUILDING A BRIGHTER WORLD

Globalization and ever more stringent regulation confront the manufacturing industry each year, presenting greater and greater challenges. Brenntag Canada recognizes that the specialty chemicals market does not have to be so complicated, however – we aim to make all aspects of chemical distribution less complex for our customers and suppliers.

Through a dedicated and experienced team of technical experts and sales agents, Brenntag Canada offers tailor-made solutions to each customer's individual needs and business challenges with a degree of professionalism that few of our competitors can match. From providing advice on improving formulations, to devising innovative supply-chain solutions, to sourcing specialty ingredients, Brenntag Canada delivers products and services which put our customers and suppliers a step ahead of the competition.

We at Brenntag demonstrate that the distribution of chemicals and ingredients is not just a business for us. It is an attitude. And our passion is to be the best partner connecting you as our customers and suppliers in local markets worldwide.

■ High Performance, Versatile Acrylic Emulsions

■ Introducing the Multi-Purpose Platform:

ALBERDINGK® AC 3600, AC 3630, AC 3660 & AC 2403

- Multiphase Acrylic Emulsions
- Alkyl-phenol (APEO)-free Emulsions
- Conventional Polyurethane Dispersions
- NMP-free and Solvent-free Polyurethane Dispersions
- UV-Curable Dispersions
- Acrylic Polyurethane Copolymers
- Castor Oil & Linseed Oil Polyols

Working for you.

Andicor Specialty Chemicals is a full-service national distributor of specialty chemicals and packaging products. Our mission is to be a seamless extension of the suppliers we represent, continually working to provide our customers with:

- competitively-priced, globally-sourced, value-added products from market-leading manufacturers
- superior customer service
- knowledgeable and responsive sales professionals
- local warehousing and delivery services

What CPCA does

CPCA provides value for members by working with key stakeholders to advance the interests of industry related to environmental regulations for a sustainable industry.

How CPCA does it

- CPCA supports regulatory and policy frameworks that help members meet business objectives and governments meet health and environmental objectives.
- CPCA ensures members are fully informed on the latest trends and developments via timely and relevant communications for effective input and better policy and legislative outcomes.
- CPCA hosts networking events for the exchange of knowledge and best practices that help foster strong stakeholder-business relationships.

What YOU can do

Help shape YOUR business environment as a CPCA member.

CPCA ENSURES YOU ARE AT THE TABLE, AND NOT ON THE MENU. BECOME A CPCA MEMBER TODAY.

THE SOLUTION IN ENERGY CURING

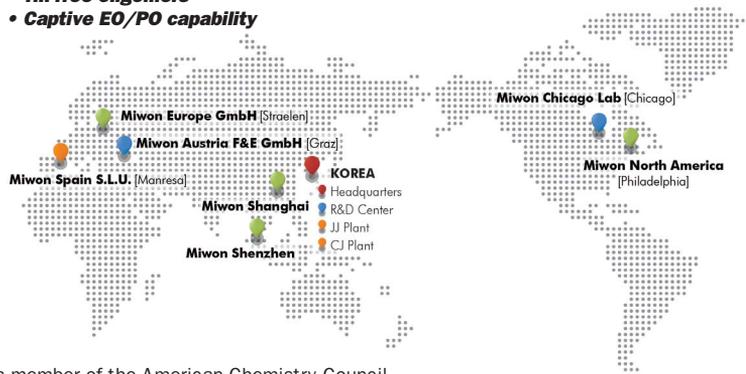

Miwon Specialty Chemical Co., Ltd. is a world-class producer of specialty acrylate and methacrylate monomers and oligomers.

Miwon maintains a global presence – in Asia, North America and Europe – with full-scale production facilities, regional technical support laboratories, regional customer sales/supply support offices and local warehouses.

We are a key raw materials supplier to the inks, coatings, adhesives and electronics industries. As manufacturing raw materials for UV and EB curing is our core business, we offer one of the broadest product lines for formulators utilizing this advanced and environmentally friendly technology.

Products are engineered to support changing market needs:

- Cross contamination free
- Toluene free (HAP free)
- Consistency in quality
- BPA-free systems
- High purity
- Low residuals
- Low extractables
- High refractive index
- Tin-free oligomers
- Captive EO/PO capability

As a member of the American Chemistry Council, we are committed to the principles of Responsible Care.

Formulation Performance and Problem Solving

A.S. PATERSON COMPANY LIMITED

Strong technical expertise complemented by exceptional customer service.

A.S. Paterson Company provides customers with access to the technical expertise of our sales representatives, as well as, many leading material suppliers from around the world. Customers gain access to formulation assistance and product testing through supplier laboratories. Finally, we offer assistance in understanding and complying with Canadian regulations.

A.S. Paterson distributes pigments, waxes, resins and other chemical materials right across Canada from multiple warehouse locations. We pride ourselves on being a National distributor with over 85 years of experience serving our customers.

As a result, you will find that A.S. Paterson is a reliable and responsible chemical distribution company who firmly stands behind all of the products we represent.

YOUR SOLUTION TO CORROSION

Hold*Blast - environmentally friendly, biodegradable surface passivator inhibits formation of flash rust and extends the time between blasting and coating. Uses regular potable water.

The MBX Bristle Blaster removes corrosion, mill scale, paint, and other surface debris, and creates a surface profile between 2.5 and 3.3 mils. The MBX Bristle Blaster is available in Electric Drive or Pneumatic Drive models.

PosiTector® - Multiple Probes, One Gauge Body Standard or Advanced Gauge Bodies Available

**Maximize Profits by
 Monitoring Coating Thickness**

- Increase quality and reduce costs by monitoring powder coating thickness to potentially save tens of thousands a year
- Promote adhesion and prevent corrosion when measuring blasted surfaces electronically with the new surface profile probe
- Determine important surface properties of paints such as strength, elasticity, and recovery etc.
- Immediately recognize irregularities in coating thickness with easy report generation using FISCHER DataCenter® Software

**Visit our website for more information:
www.fischer-technology.com**

THE CONN BLADE®

Patented blending/dispersing blade design makes radical improvement over old saw tooth designs

- * Most efficient and aggressive blending/dispersing blade available.
- * Provides proper combination of pumping action and shear/dispersion essential for fast consistent results.
- * Built in pumping action cuts processing time.
- * Longer life due to heavier gauge construction.
- * Less heat due to shorter required running time.
- * Excellent for high or low speed and high or low viscosity.
- * Supplied with hubs or mounting holes required to retrofit and upgrade present equipment.
- * Pumping blades without teeth are available and are excellent for gentle blending and agitation.

DESIGNERS AND MANUFACTURERS OF INDUSTRIAL MIXING EQUIPMENT

Value-added Benefits

CPCA is the national voice of the paint and coatings
industry supporting members in their quest to:

- Counter measures that increase industry risk.
- Comply with regulations governing their businesses.
- Improve public health and safety, and safeguard the environment.

CPCA provides the support and resources you need to
stay ahead of the curve on regulations.

GET THE SUPPORT YOU NEED. JOIN TODAY.

NEW PRODUCTS

Digital Durometer

The Model DD-5 digital durometer from Gardco is for performing timed hardness testing. It is equipped with an internal adjustable timer and onscreen countdown that can be set to a desired elapsed time from zero to 30 seconds.

When enabled, the timer function will be automatically activated when the presser foot meets the test specimen. Up to 200 readings can be stored and viewed inside the durometer or downloaded through the USB port.

There is USB data output, and the unit can download and collect data using USB smart cable set tolerance limits. It is manufactured in accordance with the ASTM D2240 specification, and includes a NIST calibration certificate.

It features a one-year warranty, a custom-made carrying case,

high and low buttons for setting tolerance limits, and solid state circuitry with a LCD display.

Batteries are included. Response speed is immediate, and the durometer holds a reading until reset. It offers a 0.1 resolution, the dial rotates up to 270 deg., and there is an extra-large number display.

Color Change Block

UPside CCV system on robot.

SAMES KREMLIN has released its new UPSide CCV Color Change Block. This unit is a universal robotic color change block that contains a compact and modular design providing several solutions to integrate onto robotic arms.

The UPSide CCV contains several innovations. It has stainless steel modules, a new UP valve, compact fittings, oriented

hoses for easy integration, and an integrated regulator.

It is lightweight, its compact design allowing for more colors in the robot arm and more paint savings. It features easy maintenance and cleaning, and flexible assembly.

SAMES KREMLIN recently highlighted this new product at an open house using the Liquid Robotic Easy and Expert Solutions. It can also be used for automotive solutions for plastic parts.

Functional Silane

Gelest, Inc. has unveiled its new SIVATE E610 enhanced amine functional silane, which it says offers improved performance with non-siliceous surfaces. It also provides improved corrosion resistance of metal substrates, superior film-forming properties in primer applications, higher bond strength in aggressive aqueous conditions, and imparts composites and primers with long-term durability in a wide range of environments.

CANWELD
EXPO & CONFERENCE 2017
METAL FABRICATING - WELDING - FINISHING

This enhanced amine silane is for use as an adhesive primer for metallic and siliceous substrates, a coupling agent for thermoset and thermoplastic composites, a corrosion inhibiting primer for paints and coatings on ferrous and non-ferrous substrates, and a functionalizer of micro-particles for use in adhesives and sealants.

It is a proprietary combination of a dipodal silanes with an amine functional silane. The enhancement of silanes is effected by incorporation of functional and non-functional dipodal silanes. The dipodal silane combines with the functional silane to form a tight conformal network of siloxane bonds, reduces water adsorption at the interface and, most importantly, forms multiple oxane bonds with the substrate.

Compared to conventional silanes, which potentially bond form three oxane bonds, SIVATE E610 can form up to six oxane bonds with the substrate. Theoretical studies, Gelest says, suggest that the dipodal silanes could have up to 106 times greater stability in aqueous environments than existing products. The enhanced bond potential offers improve mechanical properties, the ability to form coatings on a greater range

of substrate, and increase durability of coatings, primers and composites to long-term environmental exposure.

Thickness Gauge

DeFelsko's new PosiTest DFT Coating Thickness Gauge measures coating

The PosiTest DFT gauge.

thickness on metal substrates. Features include a faster measurement speed of over 60 readings per minute, onscreen averaging for up to 99 readings, a high contrast color LCD, and auto rotating display with lock to prevent unintended rotations.

This rugged, durable gage is available in two models: Ferrous for measuring coatings on steel, and Combo for measuring coatings on all metals. It has strong, wear-resistant ruby-tipped probes and no calibration adjustment is required for most applications in powder coating, paint application or inspection.

Silicone Slip Additive

The Dow Chemical Co. has introduced a new-generation silicone slip additive that it says offers optimal compatibility with modern and traditional waterborne wood-coating binders. Dow Corning 210S Additive is designed to improve the mar and abrasion resistance and anti-blocking performance of waterborne wood coatings, while reducing the tendency for surface cratering.

Additionally, the additive has no impact on mechanical properties, surface hardness

210S Additive.

or water resistance and little or no impact on recoatability and intercoat adhesion. Depending on the coating binder, it also exhibits less impact on gloss.

“At Dow, we are continually fine-tuning our silicone additive technologies to help formulators create coatings that not only meet a growing array of global safety and VOC regulations but also meet consumer desires for superior coating quality and performance,” said Dow Corning Europe SA Coatings and Leather Global Segment Leader Chris Wall.

Dow Corning 210S Additive is a third-generation version of Dow’s ultrahigh-molecular-weight silicone dispersion technology, which greatly reduces static and dynamic coefficient of friction at very low use levels. This, along with its ability to be used alone or in combination with wax emulsions, can make the additive a cost-effective choice for customizing and enhancing the performance of waterborne wood coatings.

“Dow Corning 210S Additive offers wood coating formulators the best of two worlds – the proven performance of established technology, plus a level of compatibility that extends the range of formulations where class-leading performance can be achieved,” Wall said.

Double Door Cabinets

Hammond Manufacturing has introduced extended depth versions of its large HN4FM floor-standing double door family to address the need for more internal space. Four sizes (60x48, 60x60, 72x60, and 72x72 in.) are now available in 18.69 in. depths for each of the painted steel, 304 stainless steel and 316 stainless steel models.

These new models are needed because packaging densities are increasing as more control, monitoring and communication equipment is installed in electrical cabinets. Drives are also becoming larger and more powerful, again requiring larger enclosures.

The painted HN4 FM family is sealed to UL 508 Type 4, CSA Type 4 and IEC 60529 IP66 and the HN4 FM SS stainless steel versions to UL 508 Type 4X, CSA Type 4X and IEC 60529 IP66, providing sealing where the enclosure may be hosed down, installed in wet or dusty conditions or be installed outdoors. The units are strong and rigid, enabling them to house a wide variety of heavy electrical, electronic, hydraulic or pneumatic controls and instruments.

All are fitted with lifting eyes, the doors are attached with heavy gauge continuous hinges, have a seamless poured-in place gasket for long life environmental sealing after repeated opening and closing cycles and feature three-point locking system with a padlockable handle for added security. A formed lip on the door and top of enclosure opening excludes flowing liquids and other contaminants.

A removable white powder coated inner panel is included; the center post between the two doors provides added structural rigidity and is removable for easy installation of the inner panel. A grounding stud is provided in the enclosure and a bonding stud is provided on the door; ground wire kits are available as an optional accessory.

www.hammondmfg.com

Continuous Sensing Viscometer

AMETEK Brookfield has introduced the new KU-3 Krebs Unit Viscometer. The KU-3 is used in the paints and coatings industry to measure viscosity in accordance with ASTM D562, and is ROHS compliant with the European requirement that goes into effect in July 2017.

The KU-3 offers continuous sensing and display in Krebs units, grams (weight) or centipoise. It also now features a magnetic spindle coupling providing rapid attachment

AMETEK Brookfield KU-3 viscometer.

and quick release of the KU spindles.

The instrument features a measurement range from 40 to 141 KU, 32 to 1099 gm, and 27 to 5274 cP, accuracy to ± 1 percent of full scale range and reproducibility to ± 0.5 percent of full scale range. Test results can be locked in with hold key.

The updated KU-3 has a new user interface with touch pad control and bright LED display. A flexible accordion cover protects the lab stand rod.

The base plate supports the instrument and has a convenient recess for placement of a quart-size paint can. A single-piece paint can adapter accommodates pint and half-pint cans in the same recess.

For users who measure higher viscosity non-flowing coating materials, an optional paste spindle is available for order.

Chemcraft®

A Great Finish is Only the Beginning

AkzoNobel

“You can’t beat great support,
and that’s what we have with
our Chemcraft Distributor.”

John Kunze, Sales
Power Process Equipment, Inc.

Jeff Stokes, Plant Manager
Woodharbor Custom Cabinetry

Curtis Lewerke, President
Woodharbor Custom Cabinetry

John Gilbertson Jr., Vice President
Power Process Equipment, Inc.

Jon Snow
National Sales Mgr.
Woodharbor Custom
Cabinetry

“We hang our hat on quality, it’s the founding principle of our company. It’s a very competitive market and our reputation for quality is how we set ourselves apart. Quality customer service and, most importantly, quality products. For 19 years our Chemcraft distributor, Power Process, has worked very hard to help us maintain that standard. They’re quick to respond to our needs and they support us in many aspects of our business.

Custom color matching and validation, product and process solutions – they even validate and qualify our new equipment purchases and setup. It’s a great relationship. They help us stay competitive by keeping us informed of new innovations. For example, 4 years ago they introduced us to Chemlife® 24. It’s very easy to use and has a soft, hand-rubbed feel. It sands easily and dries quickly which helps with production efficiency. And, because of its 24 hour technology, we’ve seen a 25-30% reduction in waste. A great product and great support - you can’t beat that.”

Curtis Lewerke, President
Woodharbor Custom Cabinetry
Mason City, Iowa

Founded in 1993, Woodharbor Custom Cabinetry provides high-quality custom kitchen, bath, and home cabinetry and related millwork to independent retailers, home centers and building design centers. Their Chemcraft distributor is Power Process Equipment, Inc. in Chanhassen, Minnesota.
